THE STANDARD GAS ENGINE.

MARINE AND STATIONARY

The "STANDARD" is all that its name implies. It is the most perfect Gas Engine that has been placed on the market today. It possesses all of the best features to be found in other Gas Engines, besides many advantages peculiar to itself that will be appreciated as soon as seen.

ACCESSIBILITY. Every part of the Standard Gas Engine is readily removable and accessible with the aid of an ordinary wrench and screw-driver—no special tools required. This is a fact that will be fully appreciated by those who have skinned their knuckles and been tempted to profanity by trying to get at the parts of other Gas Engines. Can use either gasoline or distillate. Absolutely safe; always ready and willing to run. Makes no noise and easy to start and keeps going, and the same can be said of the Stationary. We will install our Marine and Stationary Engines and guarantee to run them and will do all kinds of repair work. For full particulars inquire of
